March 31, 2021

Dear Ohioans:

On behalf of Ohio Governor Mike DeWine and the Ohio Department of Public Safety, I am pleased to release the 2021 Ohio Collaborative Law Enforcement Certification Report. This report represents the annual culmination of collaborative efforts made by law enforcement, community members, and other criminal justice stakeholders. As this past year highlights, there is no more important relationship between law enforcement and the communities they serve.

I first want to acknowledge the members of the Ohio Collaborative Community-Police Advisory Board. This diverse group of professionals is charged with creating core standards for law enforcement agencies, and I appreciate their commitment and dedication to serve in this important role.

I also would like to thank the Buckeye State Sheriffs' Association and the Ohio Association of Chiefs of Police for their continued support in our collective efforts.

Finally, I want to recognize the work of the Ohio Office of Criminal Justice Services and their work in supporting the Ohio Collaborative, including overseeing the certification process and producing this report. As this report shows, more than half of the law enforcement agencies are committed to adopting and implementing the standards, and as a result, our communities are better served.

I look forward to continuing our work with communities and law enforcement to increase the safety and security of all Ohioans.

Sincerely,

Karen Huey, Assistant Director
Ohio Department of Public Safety

BUCKEYE STATE SHERIFFS' ASSOCIATION

ROBERT A. CORNWELL
EXECUTIVE DIRECTOR

March 10, 2021

On behalf of the members of the Buckeye State Sheriffs' Association (BSSA), I am again proud to join with the Ohio Association of Chiefs of Police (OACP) and the Office of Criminal Justice Services (OCJS) to participate in the Ohio Collaborative certification process.

The contributions of the BSSA as participants, receiving certification, as assessors and as peer support providers in the certification process, has enriched the overall Collaborative effort and played a key role in its accomplishments. We welcome the opportunity to assist our members as they play a vital role in the development and Implementation of the Collaborative standards.

We look forward to continuing our work in partnership with the OACP and OCJS in the future.

Sincerely,

Robert A. Cornwell

Executive Director

OHIO ASSOCIATION OF CHIEFS OF POLICE, INC.

February 23, 2021

The Ohio Association of Chiefs of Police (OACP) continues to value their partnership with the Ohio Department of Public Safety (DPS) and the Ohio Office of Criminal Justice Service (OCJS) on the Ohio Collaborative statewide minimum standards.

Because we as an organization believe minimum standards are helping to further improve the professionalism and consistency of Ohio law enforcement agencies, the OACP continues to assist agencies. The OACP offers peer support and assessments of agencies to ensure they are achieving either their final or re-certification through the assessment process.

During the fifth year of the Collaborative, OACP has assisted 84 new agencies to the Collaborative receive their certification as we continue to assist in the re-certification process. ***Congratulations to all certified and re-certified law enforcement agencies!*** We stand ready to help departments meet the 2020-2021 Law Enforcement Wellness Standard, Mass Gatherings Standard and all other introduced Standards.

The Association provides outreach, peer support, countywide group training, reviews, and on-site assessments for agencies participating in the assessment process. Well over a 1000 peer and assessor assignments have been successfully completed by the OACP as we continue to offer support to agencies across Ohio.

The OACP executive board strongly advocates minimum law enforcement standards and extends the continued support of the Association to the Ohio Collaborative certification process.

Sincerely,

Chief William Balling, CLEE
OACP President, 2020-2021
Sidney Police Department

Sincerely,

Donna Harrass
OACP Executive Director

OVERVIEW

The Ohio Collaborative Community-Police Advisory Board (Collaborative) is comprised of a multidisciplinary group of Ohioans that include law enforcement, community members, elected officials, academia, and the faith-based community. The Collaborative was created by executive order 2015-04K on April 29, 2015, after the Governor’s Task Force on Community-Police Relations produced a report with recommendations on how to improve the important relationship between law enforcement and the communities they serve.

The executive order charged the Collaborative with creating uniform minimum standards for all law enforcement agencies regarding use of force, including deadly force, and hiring and recruitment. On August 28, 2015, the Collaborative adopted these standards.

The executive order also required the Ohio Office of Criminal Justice Services (OCJS) to publish an annual report identifying the state and local law enforcement agencies that have adopted and fully implemented the first two standards. In addition, the order required OCJS to publish each law enforcement agency’s compliance or noncompliance with any new or modified statewide minimum standards.

At the time of this report, the Collaborative has adopted nine standards. This year’s report focuses on the adoption of standards one through eight, which are listed below. The ninth standard, adopted in December, addresses law enforcement response to mass protests/demonstrations and will be included in next year’s report.

The first two standards (one and two) are collectively referred to as Group 1 standards. Please note that the Use of Deadly Force standard was updated in December to limit the use of choke or vascular neck restraints in order to be compliant with Governor DeWine’s directive limiting the use of such restraints, as well as the Federal safe policing practices. (See Federal Certification Process.)

GROUP 1

Policy statement for the State of Ohio standard for Use of Force

Employees may only use the force which is reasonably necessary to effect lawful objectives including: effecting a lawful arrest or overcoming resistance to a lawful arrest, preventing the escape of an offender, or protecting or

defending others or themselves from physical harm.

Policy statement for the State of Ohio standard for Use of Deadly Force

The preservation of human life is of the highest value in the State of Ohio. Therefore, employees must have an objectively reasonable belief deadly force is necessary to protect life before the use of deadly force. Deadly force, including, but not limited to, the use of a choke or vascular neck restraint¹, may be used only under the following circumstances:

1. To defend themselves from serious physical injury or death; or
2. To defend another person from serious physical injury or death; or
3. In accordance with U.S. and Ohio Supreme Court decisions, specifically, *Tennessee v. Garner* and *Graham v. Connor*.

Policy statement for the State of Ohio standard for Agency Employee Recruitment and Hiring

The goal of every Ohio law enforcement agency is to recruit and hire qualified individuals while providing equal employment opportunity. Ohio law enforcement agencies should consist of a diverse workforce. Communities with diverse populations should strive to have a diverse work force that reflects the citizens served.

Non-discrimination and equal employment opportunity is the policy. Law enforcement agencies shall provide equal terms and conditions of employment regardless of race, color, religion, sex, sexual orientation, gender identity, age, national origin, veteran status, military status, or disability. This applies to all terms or conditions associated with the employment process, including hiring, promotions, terminations, discipline, performance evaluations, and interviews.

¹ The term “choke hold” is defined as a physical maneuver that restricts an individual’s ability to breathe for the purpose of incapacitation. “Vascular neck restraint” (also known as lateral neck restraint) is a technique that can be used to incapacitate individuals by restricting the flow of blood to their brain.

Agencies should utilize due diligence in ensuring that their prospective employees have the proper temperament, knowledge and attitude to handle this very difficult job. Agencies should have appropriate mechanisms in place in order to achieve this mission. Further, agencies should ensure their employment requirements are related to the skills that are necessary to be a successful employee.

The next three standards (three, four and five) are referred to as Group 2 standards.

GROUP 2

Policy statement for the State of Ohio standard for Community Engagement

Purpose:

It is the shared responsibility of law enforcement agencies and the communities they serve to work together to build relationships based upon trust and mutual respect. A strong relationship between law enforcement agencies and the community will improve public safety and allow communities to thrive and prosper.

Standard:

Agencies must adopt a community engagement strategy with a primary focus on improving Police – Community relations.

Commentary

Agencies shall utilize proven strategies or develop their own strategies that are focused on community engagement. Strategies may address any or all of the following or other related areas: youth programs, educating the community on police policy and procedures, understanding the communities agencies serve, sharing, receiving and providing information to the public, jointly identifying areas of concern, and communicating, when appropriate, significant changes in agency operations.

The intent of this standard is to establish agency accountability for the community involvement function in writing. The function should be developed and operated to effectively meet the needs of the agency, with consideration of the department size and budget, as well as the community it serves.

Policy statement for the State of Ohio standard for Body-Worn Cameras

Purpose:

Law enforcement agencies and the community will benefit from clear guidelines involving the use of body-worn cameras and related privacy issues.

Standard:

Law enforcement agencies that use body-worn cameras must establish a written policy for their use. The policy shall address the following areas:

- The purpose and organizational philosophy regarding use;
- Requirements and restrictions for activation and deactivation of the device;
- Criminal and administrative use of the camera captured data;
- Data storage, retention, and disclosure requirements reflective of public records law and privacy concerns; and
- Accountability and training requirements for users and supervisors; and requirements for a documented review of camera captured data.

Commentary:

Agencies who utilize body-worn cameras must develop strong and consistent policies that provide guidance to their personnel as to the appropriate use of body-worn cameras. Policies need to address, at a minimum, activation and deactivation, auditing, storage, retention, public records and the release of video related to victims, especially child victims, injured victims, victims of sexual assault, and other privacy concerns. It is recognized that audio and video data is valuable recorded evidence that may provide a means of accountability for both officers and the public. It is also recognized that audio and video data may not be an accurate reflection of all that is involved with an incident. Audio and video data cannot reflect the human and cognitive conditions associated with officer and public contact. Additionally, audio and video shall not supersede the principles established by *Graham vs. Connor*.

28,657 OF 34,355

OHIO LAW ENFORCEMENT OFFICERS CERTIFIED OR IN THE CERTIFICATION PROCESS

Policy statement for the State of Ohio standard for Law Enforcement Telecommunicators

Purpose:

Law Enforcement call taking and dispatching are critical elements to ensuring a proper and safe response to reported incidents affecting public safety. Ensuring proper training and performance by tele-communicators performing these functions is essential.

Standard:

Law Enforcement agencies must ensure a training program and policy directives exist to allow for tele-communicators to be proficient in:

- Obtaining complete and accurate information from callers requesting law enforcement assistance.
- Accurately classifying and prioritizing requests for assistance.
- Obtaining and accurately relaying information which may affect responder and/or citizen safety.

Commentary:

This standard and the training applies only to those Law Enforcement Agencies that operate a telecommunications center or performs that function.

Training shall meet and support minimum standards as established by legislation for 911 call centers and public-safety answering points (PSAPs).

Acceptable training may include:

- Class room or equivalent;
- Utilization of nationally recognized dispatcher training; and/or
- Training developed by individual agencies to meet the specific needs of their communities.

Unlike Group 1 standards, which require the adoption of each standard in order to be certified, Group 2 certification is based upon the adoption of applicable standards. For instance, an agency must adopt the community engagement standard, but may not utilize body-worn cameras or employ telecommunicators. However, that agency would be certified in Group 2 since they adopted the applicable standard for their agency. If at a later time they were to begin to utilize body-worn cameras or employ tele-communicators, they would need to meet those standards in order to be certified in Group 2.

The next two standards (six and seven) are referred to as Group 3 standards.

GROUP 3

Policy statement for the State of Ohio standard for Bias-Free Policing

Purpose:

Law enforcement agencies must prohibit the use of any bias-based profiling in its enforcement programs.

Standard:

Agencies shall establish a written policy governing biased-based profiling that includes the following provisions:

- A prohibition against biased-based profiling in traffic contacts, field contacts, and in asset seizure and forfeiture efforts.
- Training all agency enforcement personnel in biased-based profiling issues and the relevant legal aspects.
- Corrective measures if biased-based profiling occurs.
- The collection of data on all self-initiated traffic contacts to include, at a minimum, the race and gender of the driver of the vehicle stopped. For agencies that employ fewer than 35 sworn full time police officers, the collection of data does not have to occur until the year 2020.
- A documented annual administrative review of agency practices, data collected, and citizens' concerns. This review shall be made available to the public.

Commentary:

Criminal profiling, in itself, can be a useful tool to assist law enforcement officers in carrying out their duties. Officers shall not consider race/ethnicity to establish reasonable suspicion or probable cause, except that officers may take into account the reported race/ethnicity of a potential suspect(s) based on trustworthy, locally relevant information that links a person or persons of a specific race/ethnicity to a particular unlawful incident(s).

Law enforcement agencies should prohibit the use of any bias-based profiling in its enforcement programs, as it may lead to violations of the constitutional rights of the citizens we serve, undermine legitimate law enforcement efforts, and may lead to claims of civil rights violations. Additionally, bias-based profiling alienates citizens, fosters distrust of law enforcement by the community, and may

9,662,769 OHIOANS ARE COVERED BY LAW ENFORCEMENT AGENCIES CERTIFIED OR IN THE CERTIFICATION PROCESS OUT OF 11,536,504 2010 CENSUS

result in media scrutiny, legislative action, and judicial intervention.

Law enforcement personnel should focus on a person's conduct or other specific suspect information. Annually, the agency should include profiling related training that should include field contacts, traffic stops, search issues, asset seizure and forfeiture, interview techniques, cultural diversity, discrimination, and community support.

Policy statement for the State of Ohio standard Investigation of Employee Misconduct

Purpose:

Law enforcement agencies and the public at large will benefit from the establishment, enhancement, and the promotion of a genuine and comprehensive employee misconduct investigation process, to include both administrative and citizen complaints.

Standard:

Law enforcement agencies shall establish a written policy which outlines the process for accepting, processing, and investigating complaints concerning allegations of employee misconduct. The policy, at a minimum, shall address the following:

- Describe the formal complaint process, outlining how and where to file a complaint;
- Outline the procedures for accepting, processing and investigating the complaint;
- Define timelines for the resolution of complaints;
- Include safeguards to protect the legal and contractual rights of the employees during internal investigations; and
- Ensure that procedures to register complaints and/or commendations are made available to the public through social media or the agency's community relations programs.

Commentary:

A well-constructed complaint process is an integral tool in community-police relations. There is a significant impact when a community knows and understands its concerns can be legitimately addressed in a proper setting. Further, officers can be better served when they can refer aggrieved individuals to a trusted process. Neither officers nor community members benefit from attempts to have

concerns addressed and redressed during a traffic stop or in the midst of an incident. It may prove beneficial for law enforcement agencies to reach out to community members in an effort to publicize, promote and develop processes that are mutually beneficial to all.

Within Group 3, the bias-free policing standard requires collection of data on all self-initiated traffic contacts. For this report, in addition to adopting the investigation of employee misconduct, all law enforcement agencies including, agencies with fewer than 35 sworn full time police officers, are now required to collect data in order be certified in Group 3.

The final standard (eight) is referred to as Group 4. Ohio Governor Mike DeWine requested the Collaborative review law enforcement vehicle pursuits and the following standard was developed and adopted.

GROUP 4

Policy statement for State of Ohio standard for Law Enforcement Vehicular Pursuit

Purpose:

Vehicle pursuits are dangerous and pose a high risk for officers and the community. Both law enforcement personnel and the general public will benefit from a Law Enforcement Vehicular Pursuit Standard.

Standard:

Law enforcement agencies shall establish a written policy that governs the pursuit of motor vehicles. The policy, at a minimum, shall include the following:

- Definition of a motor vehicle pursuit;
- Defining the criteria under which a pursuit can be initiated;
- Evaluating the circumstances (seriousness of the alleged offense, conditions of the road and location of the pursuit, time of day and weather conditions);
- A provision that prohibits or discourages pursuits when the suspect is known to the officers or easily identifiable, unless the officers have probable cause to believe the suspect's escape poses a significant threat of death or serious physical injury to officers or others;
- Responsibilities of the initiating unit and secondary units;

83% OF LAW ENFORCEMENT OFFICERS IN THE STATE ARE CERTIFIED

- Specifying the roles and restrictions pertinent to marked, unmarked, or other types of police vehicle involvement in the pursuit;
- Provide communication protocols addressing responsibilities for officers and telecommunicators;
- Describing supervisors' responsibilities;
- Specifying when and who has the authority to terminate pursuit;
- Engaging in inter and intra-jurisdictional pursuits involving personnel from the agency and/or other jurisdictions;
- A requirement that agencies provide training to officers prior to the utilization of pursuit termination tactics and intervention techniques (e.g. PIT maneuver, tire deflation devices, road blocks, etc.);
- Requiring a written report and an administrative review of each pursuit; and
- Conducting a documented annual analysis of pursuit reports, to include a review of policy and reporting procedures, approved by the head of the agency.

Commentary:

Law enforcement agencies have historically engaged in vehicular pursuits. Due to the extreme danger that these pursuits present, many agencies have limited the circumstances in which they will allow their officers to engage in pursuits. Additionally, some agencies have outright prohibited the practice or limited them to the rarest of circumstances when deemed necessary based upon a variety of factors.

The agency should have explicit policies and procedures for pursuits. All sworn personnel should be provided with this written directive. Agencies may wish to consider frequent discussions and reviews of the policies/procedures during shift briefings and/or in-service training sessions.

Because of the inherent risk and the real possibility of injury and loss of life, agencies should seek to limit the use of vehicular pursuits. A vehicle pursuit should be terminated whenever the level of danger created by the pursuit outweighs the immediate consequences of the suspect's escape.

COUNTY PROFILES

This report is divided into county profiles. Agencies are identified as one of the following statuses: In Process,

Certified, or Not Certified in Group 1, Group 2, Group 3, and Group 4 standards. Agencies that are in process or certified appear in the county profiles that are listed alphabetically in the body of the report. Non-certified agencies are listed alphabetically by county in the back of this report. The county profiles identify the number of agencies in the county, number of agencies involved in the certification process, number of overall officers, percentage of officers who work for agencies engaged in the certification process, county population, and the percentage of the population that is served by an agency in the certification process.

At the time this report was finalized, 529 agencies have obtained certification on the first two standards. Additionally, we continue to make progress in certifying agencies in Group 2 and 3 standards. There are 418 agencies certified in both Group 1 and Group 2 standards, compared to 356 agencies last year and 299 agencies are certified in Group 1, Group 2 and Group 3 standards, compared to 198 agencies last year. Finally, 207 agencies have obtained certification in all four group standards.

This report goes to great lengths to provide statistical information on the true impact of the adoption of the Collaborative standards. Thus, a great deal of the work is focused on the officers who are part of the certification process and the population that is served by these officers. The success of these standards is dependent upon the number of officers who are trained on the standards and the number of people who are served by these officers.

CERTIFICATION PROCESS

To ensure agencies were adopting and implementing the standards created by the Collaborative, OCJS created a law enforcement certification process. The certification process has the distinct goal of building a rigorous review process with legitimacy in the eyes of both the public and law enforcement.

The certification process was developed by criminal justice professionals with extensive expertise and experience in accreditation. The certification process has three components. The process begins when an agency submits an application and documentation supporting its efforts to adopt and implement the Collaborative standards. When an agency has completed this initial step, it is deemed *in process*.

Once an agency completes that initial step, their agency application and supporting documentation is then passed on to a reviewer to determine if the agency's documentation supports their assertion that they have implemented the Collaborative standards. This part of the process may result in multiple contacts between the reviewer and the agency seeking certification as the reviewer seeks additional information or clarification. Once the reviewer is satisfied the documentation is sufficient to demonstrate the agency has adopted and implemented the standards, that agency is deemed to be *provisionally certified*.

The final step in the process is an onsite assessment of an agency by a criminal justice professional, either a former or current law enforcement officer or accreditation expert, and a final review by the executive director of OCJS. Prior to conducting the onsite review, the assessor will review all documentation submitted by the agency and the entire certification file. Once this review is completed, the assessor will go to the agency² and review additional documentation and interview agency staff. Once the assessor completes their onsite review, they will write a report documenting their visit and findings. The report is then forwarded to the executive director of OCJS for final review. Once the executive director is satisfied the agency has implemented the standards, the agency is deemed to be *final certified*.

This year, more agencies have achieved final certification in all four groups of standards. However, despite this progress, there are fewer agencies that are considered in process due to the use of a more restrictive definition of *in process*. As a result, agencies that have not demonstrated substantial progress towards certification will no longer be considered in process. While many agencies have recently indicated they still plan to adopt the Collaborative standards, if they have not demonstrated progress, they are not considered *in process*.

RECERTIFICATION PROCESS

Each agency must recertify its Collaborative standards on a revolving cycle of every three to four years. Agencies that were originally certified in 2016 and 2017 must resubmit

their Group 1 documentation for review and demonstrate that they have continued to adopt and implement the standards during another onsite assessment to receive recertification. If an agency due for recertification does not recertify, they will be deemed non-certified. Agencies that have resubmitted their documentation, but are awaiting their onsite assessment, will be considered in process for recertification. At the time this report was finalized, 210 law enforcement agencies have obtained recertification in Group 1 standards.

FEDERAL CERTIFICATION PROCESS

On June 16, 2020, the Federal Executive Order 13929 on Safe Policing for Safe Communities was issued. The purpose of this Executive Order is "to ensure that law enforcement agencies continue striving to provide transparent, safe, and accountable delivery of services to communities."

The U.S. Department of Justice has selected OCJS and the Ohio Collaborative Law Enforcement Agency Certification Program as the independent credentialing body responsible for certifying Ohio law enforcement agencies. To receive certification, at a minimum, agencies must be compliant with two mandatory safe policing practices:

1. Adherence to applicable Federal, State and local laws.
2. Prohibition of choke holds- a physical maneuver that restricts an individual's ability to breathe for the purposes of incapacitation- except in those situations where the use of deadly force is allowed by law.

At the time this report was finalized, 620 law enforcement agencies have obtained certification in Federal safe policing practices.

ACKNOWLEDGMENTS

This report and process could not have been completed without the strong support and partnership of both the Buckeye State Sheriffs' Association (BSSA) and the Ohio Association of Chiefs of Police (OACP). Both organizations have encouraged their members to participate in the process, provided valuable input to the development of standards, and provided assessors and peer support for the certification process. Each organization has also assisted with our comprehensive outreach effort to contact agencies about the certification process.

² During the COVID-19 pandemic, assessors are conducting agency onsite assessments virtually.

STRENGTHENING COMMUNITY POLICE RELATIONS 2021

In order to strengthen the bond between communities and police, the Ohio Collaborative Community-Police Advisory Board developed standards for state and local law enforcement departments regarding:

- The proper use of force including deadly force;
- The recruiting, hiring and screening of potential law enforcement officer candidates;
- The implementation of community engagement;
- The appropriate use of body worn cameras;
- The essential training for law enforcement telecommunicators;
- The collection of data to demonstrate bias free policing;
- The investigation of employee misconduct; and
- The establishment of specific policies and procedures for vehicle pursuits.

JOHN R. KASICH
GOVERNOR
STATE OF OHIO

Executive Order 2015-04K

Establishing the Ohio Collaborative Community-Police Advisory Board

WHEREAS, trust between the citizens of Ohio and the law enforcement officers who serve us is essential for building safe communities and creating and sustaining opportunities for all Ohioans; and

WHEREAS, through Executive Order 2014-06K, I created the Ohio Task Force on Community-Police Relations ("Task Force") to explore how to strengthen the fractured relationships that exist between law enforcement and some communities and to examine strategies to strengthen trust between law enforcement and the communities they serve; and

WHEREAS, the Task Force held a series of public forums throughout the State to listen to community and law enforcement perspectives on community-law enforcement interaction; and

WHEREAS, in those public forums, the Task Force heard from hundreds of members of the general public and nationally renowned experts about the challenges that currently exist in rebuilding trust between law enforcement and the public in some communities; and

WHEREAS, the Task Force has produced a report that includes recommendations on how to improve relationships between law enforcement and the communities they serve, as well as research, supporting documentation and, most importantly, the perspectives of the citizens of Ohio, Task Force members, experts, and others who provided testimony and information to the Task Force; and

WHEREAS, the recommendations, testimony, supporting documentation, and best practices outlined in the report serve as a blueprint for further action; and

WHEREAS, continuing to bring together citizens, communities and law enforcement departments to strengthen their relationships in a collaborative way will allow the work and the recommendations of the Task Force to be carried forward;

NOW THEREFORE, I, John R. Kasich, Governor of the State of Ohio, by virtue of the authority vested in me by the Constitution and the laws of the State of Ohio do hereby order and direct that:

1. The **Ohio Collaborative Community-Police Advisory Board** (“the Collaborative”) is hereby established. The Collaborative will consist of twelve (12) persons appointed by me, plus additional *ex officio* members as I may designate, and will include both law enforcement officers and public members. I will appoint a Chairperson from among the twelve members. Members of the Collaborative will serve three- (3-) year terms, though the initial terms will be staggered so that no more than four (4) members’ terms will end every year.
2. The purpose of the Collaborative is to advise and work with the Office of Criminal Justice Services (“OCJS”) in the Ohio Department of Public Safety on implementing the Task Force’s recommendations and creating, for the first time in Ohio’s history:
 - a. Statewide minimum standards for state and local law enforcement departments to follow in certain vitally important areas including, but not limited to, (i) the proper use of force, including deadly force, and (ii) the recruiting, hiring and screening of potential law enforcement officer candidates; and
 - b. Model departmental policies and best practices recommendations which state and local law enforcement departments and local communities will be encouraged to adopt and then adapt to their particular communities’ needs. The model policies and best practice recommendations will address several areas including, but not limited to: (i) methods for law enforcement to involve the local community in helping officers to address safety issues in the community; (ii) educating the local community on the challenges that law enforcement officers face on a daily basis and how officers are trained to deal with those challenges; (iii) opening effective lines of communication between law enforcement officers and local citizens, particularly as it pertains to encounters between officers and citizens; and (iv) strategies for how both law enforcement and the communities the officers serve can hold each other accountable for the other’s actions.
3. Once all of the members of the Collaborative have been appointed, OCJS and the Collaborative shall immediately begin jointly developing the two statewide minimum standards referred to in paragraph 2a. above. No later than ninety (90) days after the members of the Collaborative have been appointed, the Collaborative and OCJS shall finalize the two standards referred to in paragraph 2a. above and OCJS will disseminate those two standards to all state and local law enforcement departments in Ohio.
4. Additionally, the Collaborative and OCJS shall develop the model departmental policies and best practices referred to in paragraph 2b. above. The Collaborative and OCJS shall set a deadline by which the model departmental policies and best practices will be finalized and disseminated to all state and local law enforcement departments in Ohio. In setting that deadline, the Collaborative and OCJS shall take into consideration the date of the annual report set forth in paragraph 5 below and allow state and local law enforcement departments and the communities they serve sufficient time to review and consider the adoption of those model departmental policies and best practices prior to the issuance of the first annual report.

5. The Collaborative, with the assistance of OCJS, shall monitor and evaluate all state and local law enforcement departments' adoption and implementation of the two statewide minimum standards referred to in paragraph 2a. No later than March 31, 2017, and annually thereafter, OCJS shall publish a report listing which state and local law enforcement departments have and have not adopted and fully implemented those two statewide minimum standards. OCJS shall also note in its report which departments have also adopted one or more of the model departmental policies and best practices developed by the Collaborative and OCJS.
6. The Collaborative may also:
 - a. Recommend to OCJS additional statewide minimum standards for law enforcement departments in Ohio beyond the two standards specified in paragraph 2a. above.
 - b. Recommend to OCJS additional model departmental policies and best practices for law enforcement departments in Ohio beyond those specified in paragraph 2b. above.
 - c. Evaluate the effectiveness of any statewide minimum standards and/or model departmental policies and best practices developed by the Collaborative and OCJS and, if necessary, recommend modifications to the same.
 - d. Recommend to OCJS any other measure the Collaborative believes is necessary to implement the Task Force's recommendations.

Any such new or modified statewide minimum standards and/or model departmental policies and best practices which the Collaborative and OCJS develop shall be disseminated by OCJS to all state and local law enforcement departments in Ohio. All annual reports published by OCJS in 2018 and thereafter shall include each law enforcement department's compliance or noncompliance with any such new or modified statewide minimum standards.

7. The Collaborative and OCJS, in their discretion, may develop measures to encourage state and local law enforcement departments to adopt and implement any statewide minimum standards developed by the Collaborative and OCJS.
8. Any and all staff support and resources necessary for the Collaborative to fulfill its obligations as outlined in this Executive Order shall be provided by the State of Ohio through OCJS. The Chairperson and members of the Collaborative shall serve without compensation for their work on the Collaborative, but may be reimbursed for their reasonable and necessary expenses in the conduct of Collaborative business.

I signed this Executive Order on April 29, 2015, in Columbus, Ohio, and it will not expire unless rescinded.

John R. Kasich, Governor
